VII ANNUAL INTERNATIONAL SCIENTIFIC CONFERENCE
PSYCHIATRY OF THE XXI CENTURY: INNOVATIONS IN ADDICTION MEDICINE

PROGRAM
Welcome to Kyiv,
Welcome to the Annual Psychiatric International Conference!

We are proudly hosting this year the VII Annual Psychiatric International Scientific Conference «Psychiatry of the XXI century: innovations in Addiction Medicine», WPA Co-sponsored meeting, April 17-19, 2019, Kyiv, Ukraine. Annual Conference, organized by the Ukrainian Psychiatric Association, Ministry of Health of Ukraine and State Institution “Ukrainian Research Institute of Psychiatry Ministry of Health of Ukraine” - a unique science, education and social event, has traditionally become the largest and most important event in the calendar of psychologists and psychiatrists - experts in the field of mental health from all over Ukraine. We have the great honor and pleasure to announce that this year conference has got endorsement as a WPA Co-sponsored meeting and has been accredited by the EACCME®.

We sincerely hope you’ll enjoy the Conference and beautiful city Kyiv!

On behalf of the organizing committee and myself, I personally congratulate everybody on the annual international scientific and practical conference.

Let me thank all my colleagues, scientists and practitioners, who in such hard times for the state, keeps a cold mind and a pure heart, who continues to develop scientific opinion, introduces practical activity scientific achievements, opens new horizons and improves the quality of patient care.

For the second time in the history of Ukrainian psychiatry, the conference has the status of Co-Sponsored Meeting of the World Psychiatric Association (World Psychiatric Association).

I am also very pleased to note that for the second time our conference has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME) – 21 Credit Points.

As always, scientists, young scientists, doctoral students, post-graduate students, psychiatrists, child psychiatrists, family doctors, infectionists, health organizers, social workers, nurses, psychologists and other professionals working in the field of mental health are invited to participate in the conference.

This year, for the first time addiction medicine issues will be looked into. The conference will take part in addition to the Ministry of Health, the Ministry of Social Policy, the Ministry of Justice and the Ministry of Education.

As in other years, well-known world experts on mental health will come to us.

The conference takes place during the period of active reformation of the health care system of the state, in particular psychiatric services. The war in the East keeps going, it is still a relevant issue to provide humanitarian aid for the forced migrants and “Joint Forces Operation” participants,

that increases the burden on all existing services, including psychiatric ones. That is what strengthens the efforts to reform the mental health system and to implement modern approaches that will help to decentralize the system, bring the patient closer and improve the quality of services and protect the rights of patients.

All the actual and important issues for Ukraine are planned to be discussed at the conference. Science is an industry that for centuries unites people around the world, regardless of their national traditions, political beliefs and religious affiliation. We hope, that the common opinion of specialists, joint work and the desire to improve the service will surely lead us all to success.

Taking this opportunity, I would like to wish the participants of the conference bright impressions and unforgettable meetings, scientific pleasures and pleasant surprises.

With best regards,
Irina Pinchuk

THE EVENT WILL FOCUS ON SUCH TOPICAL ISSUES:

- Epidemiology, needs assessment in addiction medicine
- Disorders related to the use of psychoactive substances
- Overdose prevention or New psychoactive substances
- Psychotherapy of addiction disorders
- Diagnosis, clinic and treatment of eating disorders
- Patients with depression, cognitive aspects
- Mental disorders in children and adolescents
- Prevention of relapses (for addiction psychiatrists and rehabilitation centers)

ORGANIZER ADDRESS:
103, Kirilovskaya Street, building 12, 04080, Kiev
Phone/Fax for information: (044) 468-32-15.
e-mail: ndips@ukr.net

COMMITTEE CHAIRMAN

Semyon Gluzman  President of Ukrainian Psychiatric Association
Irina Pinchuk  Prof., MD, PhD
Vice-President of the Ukrainian Psychiatric Association, SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, Director of the Ukraine and Central Asia Addiction Technology Transfer Center

THE CO-CHAIR

O.V. Bohomolets  Chairman of the Verkhovna Rada Healthcare Committee, MD, Professor

MEMBERS OF THE ORGANIZING COMMITTEE

S.I. Tabachnikov  Head of Department of Medical and social problems of the treatment of mental disorders of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, MD, Professor, Academician of Higher education academy of science of Ukraine

V.Ya. Pishel  Head of Department of Medical and social problems of treatment of mental disorders of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, MD, Professor

O.A. Revenok  Head of Department of Complex forensic psychiatric examination SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, Main Specialist in the speciality “Forensic psychiatric examination” of MoH of Ukraine until 03.04.2017, MD, Professor

I.A. Martsenkovsky  Ph.D., Candidate of Medicine, m.s., Head of Department of Mental disorders in children and adolescents SI “Research Institute of Psychiatry Ministry of Health of Ukraine”

O.V. Kolodiezhnyi  Head of Scientific methodological and information-analytical Department of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”

O.O.Drevitska  Head of Psychosomatic Medicine and Psychotherapy Department of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, MD, Associate Professor

I.F. Zdoryk  Senior research officer of the Scientific, Organizational, Methodological and Information- Analytical Department of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”, Candidate of Medicine

N.V. Atamanchuk  Assistant Director of SI “Research Institute of Psychiatry Ministry of Health of Ukraine”

CAMPAIGN: SOCIAL JUSTICE FOR PEOPLE WITH MENTAL ILLNESS

In many cultures, the butterfly symbolizes the psyche or soul; they are also believed to signify change, rebirth and resurrection due to their life cycles. Butterflies that are blue in color are thought to represent joy, wonder and wish fulfilment. The most breath taking of all blue butterflies is the Blue Morpho, or Morpho menelaus, which lives in the tropical rainforests of Latin America and is one of the largest butterflies in the world. Its iridescent blue wings represent change and embody the aims of the WPA’s Social Justice for People with Mental Illness Campaign - to change how people with mental illness are perceived across the world.

The WPA launched its Social Justice Campaign and the Bill of Rights for People with Mental Illness on World Mind Matters Day 2016, with the Blue Morpho as its symbol. After a study of 193 member states of the United Nations found that over two thirds of them did not offer any protection of basic human rights to people with mental illness despite having signed the United Nations Convention.
ABOUT KYIV

There are cities that symbolize a nation and Kyiv is one of them. Kyiv is the soul of Ukraine, playing a key part in the past, present and future of this country. One of the most beautiful cities in the world, Kyiv is covered in a sea of greenery, which can be seen everywhere - in its many parks, boulevards and gardens. At every corner of every street you will find beautiful historic sites.

Today we are witnessing a great time in Kyiv’s and in Ukraine’s history. With the population of over three million, the same as Rome, Paris, and Madrid, changes are taking place at an amazing pace. At the same time, Kyiv faces challenges that other modern European cities face as well.

For more information on Kyiv, please visit Kyiv city guide http://www.inyourpocket.com/kyiv

REGISTRATION AND HOSPITALITY DESK

Wednesday, April 17: 08.00-19.00 (reception area, 1st floor)
Thursday, April 18: 08.00-19.00 (reception area, 1st floor)
Friday, April 19: 08.00-16.00 (reception area, 1st floor)

LANGUAGE

The official languages of the conference are English / Ukrainian. During the entire work of the Conference, two-way simultaneous interpretation is provided. You can also make a report in Russian

EXHIBITION OPENING HOURS

AT THE CONFERENCE HALL DEPO

Wednesday, April 17: 08.00-19.00 (F&B ZONE, 2nd floor)
Thursday, April 18: 08.00-18.00 (F&B ZONE, 2nd floor)
Friday, April 19: 08.00-15.30 (F&B ZONE, 2nd floor)

PhD student, San Diego State University, California
після усунення симптомів депресії рекомендується продовжувати лікування принаймні 6 місяців для зміцнення антидепресивного ефекту.

Терапевтична доза залежить від особистих особливостей пацієнта та навантаження, причому відсутність депресії не гарантує відсутності стимулюючих ефектів. Максимальна доза 20 мг за добу є надто високою і не рекомендується використовувати.

Спосіб прийому. Застосовують внутрішньо, початкова та підтримуюча дози становлять 10 мг один раз на добу. Залежно від індивідуального періоду прийому відбувається постійна кумулятивна дія. Стійка концентрація в плазмі досягається приблизно через 2 тижні. Показання. Лікування тривалого періоду розладу у дорослих. Протипоказання. Підвищена чутливість до діючої речовини або до будь-якої складової препарату.

Вертолікетин не проявляв будь-якого клінічно значущого впливу на параметри ЕКГ. Абсолютна біодоступність становить 75 %. Середній період напіввиведення – 66 годин. Стійка концентрація в плазмі досягається приблизно через 2 тижні. Показання. Лікування тривалого періоду розладу у дорослих. Протипоказання. Підвищена чутливість до діючої речовини або до будь-якої складової препарату.

CLOSING CEREMONY
Препарат вибору для пацієнтів із шизофренією при несприятливому метаболічному профілі.

Покращує соціальне функціонування.

Доведена біоеквівалентність оригінальному арипіпразолу.

Фармакологічні властивості.

Таблетки.

Психолептичні засоби. Антипсихотичні засоби. Інші нейролептики. Код АТХ N05AX12.

Лікарська форма.

Арипіпразол® показаний для лікування шизофренії у дорослих. Арипіпразол® показаний також для лікування помірних і тяжких маніакальних епізодів при біполярному розладі I типу, а також для запобігання новим епізодам маніакальних епізодів у діагностичному значенні.

Гіперчутливість до арипіпразолу або до будь-якого іншого компонента препарату.

Протипоказання

Побічні реакції.

Збудження, безсоння, неспокій; екстрапірамідні порушення, акатазія, гіперактивність, вібраційний тремор, запаморочення, сонливість, седативний ефект, головний біль; розмитість поля зору, диспепсія, блювання, нудота, запор, надмірне слиновиділення; втома (розділ скорочено, для детальної інформації див. інструкцію для медичного застосування).

Терапевтична дія арипіпразолу в лікуванні шизофренії та біполярного розладу типу I обумовлена сполученням часткового антагонізму відносно рецепторів дофаміну D2 і D3, рецепторів серотоніну 5-HT1а і 5-HT2а, а також антагонізму відносно рецепторів серотоніну 5-HT2a. Відомо, що арипіпразол виявляв антагоністичні властивості на рецепторах дофаміну D2 і D3, рецепторах серотоніну 5-HT1а і 5-HT2а, а також антагонізму відносно рецепторів серотоніну 5-HT2a.

Фармакологічні властивості.

Скорочена інструкція для медичного застосування препарату АРИПРАЗОЛ
